

18th Winemaking competition

We invite you to participate in the 18. Winemaking Competition for ENOEXPO® 2026 Medal!

The aim of this competition is to select the best wines in specific categories and award them with ENOEXPO® 2026 Trade Fair Medals.

The competition can be entered by both producers and importers of wine, independently of whether they exhibit at ENOEXPO® 2026 or not. Winning the ENOEXPO® medal is clearly associated with building awareness of the brand on the Polish market.

The ENOEXPO® Medal is a respected brand, very important for the domestic wine market.

The Winemaking Competition for ENOEXPO® Medal incessantly enjoys a high reputation among the wine industry in Poland. Its recognition is also associated with **the International ENOEXPO® Trade Fair**, which is the most important wine industry event in Poland, gathering distributors, importers, restaurateurs, consultants, and sales representatives.

The best opportunity to present product to your target group!

The announcement of the competition results will take place at a formal medal award ceremony on the first day of the fair. The winners will also be announced on the ENOEXPO trade fair's social media channels and website. The award-winning wines will be showcased in special displays during the fair, and the winners will receive a statuette, diploma, and medal stickers. Winners will also have the opportunity to present their wines at special tastings during and after the fair.
